

ENVIRONMENTAL POLICY

The Priors School recognises the importance of environmental awareness and actions to ensure that the activities of the School do not have an adverse impact on the environment either now or in the future.

The Priors School therefore supports policies which:

- Integrate environmental considerations in the management of the School, including decision-making, operations, training and communication.
- Maintain environmental standards at least equal to legal requirements.
- Minimise the use of energy.
- Minimise the use of waste.
- Manage the school so as to minimise any adverse impact to air, land or water.
- Promote the environmental inclusion and understanding of children within the school.

As part of the School's commitment to its environmental policy, periodic reviews will take place to monitor achievement and promote further improvements.
